EL HARÉN

HAMPSHIRE DOWN SHEEP BREEDING

GENETIC EXCELLENCE.
A TRADITION OF LEADERSHIP.
A GLOBAL LEGACY.

For over 70 years we have been dedicated to genetic selection and improvement, combining science, experience and passion to produce superior sheep and exceptional quality meat.

CABAÑA EL HARÉM

HAMPSHIRE DOWN SHEEP BREEDING

GENETIC EXCELLENCE.
A TRADITION OF LEADERSHIP.
A LEGACY OF QUALITY.
A COMMITMENT TO THE FUTURE.

Cabaña El Harém is an elite Hampshire Down breeding operation in Argentina, recognized for its genetic quality, productive efficiency and commitment to continuous improvement.

**OVER 80 YEARS
OF LIVESTOCK TRADITION
IN BEEF PRODUCTION**

A legacy built on experience,
commitment and results.

**10 YEARS
OF EXPERTISE IN
SHEEP PRODUCTION**

A decade of specialization in Hampshire
Down genetics and continuous improvement.

**ELITE HERD
1,800**
Purebred pedigree
ewes and selected sires

**100%
CONTROLLED
GENETICS**
Traceability and
rigorous selection

**PERMANENT GENETIC
EVALUATION**
Objective, measurable
and documented
results

HIGH MEAT YIELD
Excellence in fertility,
hardiness and
adaptation

HEALTH & WELFARE
Animal welfare,
biosecurity and total
traceability

**OWN FARMS,
FACILITIES & LOGISTICS**
Productive efficiency
from field to final
destination

A COMPLETE AND INTEGRATED GENETIC SYSTEM

GENETIC SELECTION

Strict selection program
based on productive,
reproductive and structural
criteria to achieve superior
genetics.

GENETICS & RESEARCH

Continuous research and
genetic evaluation to
improve performance
and adapt to different
environments.

ADVANCED LABORATORY

State-of-the-art laboratory
for genetic analysis,
reproductive control
and health monitoring.

REPRODUCTION PROGRAM

Efficient reproductive
management to ensure
genetic progress and
sustainable production.

PRODUCTIVE MANAGEMENT

Efficient systems focused on
animal welfare, nutrition,
health and environmental
sustainability.

INFRASTRUCTURE DESIGNED FOR EXCELLENCE

OWN FARMS

Strategically located in the heart
of Argentina's livestock region,
on highly productive land.

MODERN FACILITIES

Functional design for animal
welfare, efficient handling
and biosecurity.

VETERINARY & HEALTH CENTER

Preventive medicine, permanent
monitoring and animal welfare
as top priorities.

FEED & NUTRITION

Balanced nutrition program
to maximize genetic potential
and productivity.

LOGISTICS & TRANSPORT

Our own logistics ensure efficiency,
animal welfare and product
traceability.

OUR VALUES

TRADITION

Over 80 years of
livestock tradition
in beef production.

EXPERTISE

10 years of specialized
experience in sheep
production.

QUALITY

Committed to
excellence in every
process.

INNOVATION

Continuous
improvement
and technology.

RESPONSIBILITY

Sustainable production
with respect for animals
and the environment.

PASSION

Passion for genetics,
livestock and what
we do.

WHY EL HARÉM?

- ✓ Elite genetics developed and consolidated over 10 years.
- ✓ Outstanding reproductive performance.
- ✓ Adaptability to diverse environments.
- ✓ Efficient and sustainable production.
- ✓ Internationally recognized genetic quality.
- ✓ Experienced team with a long-term vision.
- ✓ Commitment to continuous improvement and innovation.

EL HARÉM GENETICS: PRESENT IN MORE THAN 15 COUNTRIES

Our genetics reach
producers on 4 continents,
with a growing demand
for Hampshire Down
genetics and high-quality
meat.
